		To balance on hand,	78 71

\$1,013 80

The Engineers are able to report Nos. 3, 4, and 5 in good working condition, with other fire apparatus belonging to the Town.

We have now passed another year very favorably in the matter of fires, there having been but one general alarm, that occurring in September, at the burning of the barn of Orra Goodell. Owing to distance from water, the Department were of little or no service.

Our appropriation for repairing and painting the houses and purchasing leading hose, we found to be insufficient for both purposes, therefore we have purchased no new hose the past year. We have had what hose we have put in as good condition as possible, but still recommend purchasing some new the coming year.

The House at Bramanville needs shingling, and we are able to report a balance of last year's appropriation of more than enough to cover the expense.

The Department when full numbers 95 men, and we commend them to your generous support.
